SUMMARY

Full-Stack Developer with hands-on experience building production-grade web platforms using React, Next.js 14, Node.js, and TypeScript for live B2C products across the UK, Saudi Arabia, and Pakistan. Proven track record shipping real-time systems with Socket.IO/WebSockets, scalable REST APIs, and complex role-based admin dashboards, alongside exploratory work in AI tooling and blockchain.

EDUCATION

University of Central Punjab (UCP) — BS Computer Science 2023 – 2027
CGPA: 3.47

Forman Christian College (FCCU) — Intermediate 2020 – 2022
82%

EXPERIENCE

Waxon IT — *Frontend Developer* **Dec 2025 – Present**

- Delivered 4 production platforms, Servisca, EasyHadya, EasyMarriage, and Inflora-X using Next.js 14, TypeScript, React Query, Zustand, Zod, Tailwind CSS, Framer Motion, and Socket.IO.
- Built real-time chat, order tracking, and notification systems; implemented role-based admin dashboards with server-side pagination and reusable component libraries shared across all products.

CodeCelix — *Full-Stack Developer Intern* **Jan 2026 – May 2026**

- Delivered 18 client projects, including e-commerce storefronts, a booking/reservation system, an employee management dashboard, AI-powered chatbot and recommendation tools, and a blockchain-based supply-chain tracker.
- Worked across the stack with React, Next.js, Node.js, Express, MongoDB, and Solidity owning API design, integration, and deployment for each project.

Algorydhem Developers — *Frontend Developer & SEO Strategist* **Aug 2024 – Jul 2025**

- Delivered 5 client projects spanning responsive React/Tailwind storefronts, custom WordPress themes, and Shopify stores for retail and service-based businesses.
- Improved organic traffic through on-page SEO, technical audits, and keyword-driven content structuring, alongside cross-browser UI fixes and page-speed optimization.

PROJECTS

Servisca — servisca.co.uk/
Services marketplace connecting customers with vetted local taskers across categories and sub-categories. Implemented the booking flow, payment integration, real-time notifications via Socket.IO, Zod validation, Zustand state management, and a complete admin panel on a Next.js/Node.js/MongoDB stack.

EasyHadya — easyhadya.com/
Saudi Arabia-based gifting e-commerce platform for single items and curated bundles. Built the product catalog, cart/checkout flow, real-time order tracking via WebSockets, and a complete admin dashboard using Next.js 14, TypeScript, and Socket.IO.

EasyMarriage — easymarriage.com/
Matchmaking platform with real-time messaging, profile discovery and filtering, multi-step onboarding, and a role-based admin dashboard, built with Next.js 14, TypeScript, React Query, and Socket.IO.

Quizlet — Flashcard Learning Platform — quizlet.com/gb
Flashcard-based study platform with study sets, spaced-repetition quiz modes, and progress tracking on the frontend, backed by a Node.js/Express API for set and user management.

Synclify — Workforce Operations SaaS — synclify.vercel.app/
End-to-end office management platform covering employee management, ticketing, meetings, kanban boards, achievements, multi-workspace and multi-role RBAC, a community feed, blog, and real-time chat. Built with Next.js 14, TypeScript, Node.js, Express, MongoDB, Socket.IO, Redis, Zustand, Zod, and Tailwind CSS.

SKILLS

Frontend: React, Next.js 14, TypeScript, JavaScript (ES6+), Tailwind CSS, Redux, Zustand, React Query, Framer Motion, WebSockets, Socket.IO
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Zod, Multer
Databases: MongoDB, MySQL, ER Diagrams
Tools & Payments: Twilio, Git/GitHub, Vercel, WordPress, SEO
AI Tools: Claude, Cursor, Antigravity, Kiro, Perplexity, GitHub Copilot, Claude Code CLI, OpenRouter
Other: OOP, Data Structures & Algorithms, C++, Python, C#, JS, Type script, Linux (Kali)
